South Bend/Becks Road Site

Re: Closure of TDD

The above referenced site is among five sites in the South Bend area originally targeted for a HRS hydrogeologic investigation. However, due to the imminent expiration of the FIT contract it is unlikely that significant work can be accomplished toward completion of the TDD. Therefore, the present TDD should be closed, with the understanding that a new TDD be issued when guidance from U.S. EPA dictates FIT re-involvement.
